- SVG
- Figma

Frontend

- HTML
- CSS
- Javascript
- React

Backend

- Node JS
- Express JS
- Posgres SQL

LANGUAGES

- English B2
- Spanish Native

PROFILE

As a passionate full-stack web developer, I specialize in creating smooth and responsive user experiences using modern front-end technologies such as React, HTML, CSS, and JavaScript. With a strong foundation in UI/UX design and tools like Adobe Photoshop, Illustrator, and Figma, I bridge the gap between functional code and user-centered design.

MAIN PROJECTS

NOV - 2024

Marvel Universe Characters App

Web application that consumes the Marvel API to explore characters.

- Implementation and user authentication and data paging
- Used `useContext`, `useReducer` and `React Router` for state and route management

CRUD User App

NOV - 2024

CRUD application to manage users with Material Design design.

- Implementation of filters and efficient search with React, improving the performance of the app.
- Form management and custom validations in React.

Weather App

NOV - 2024

Application to check the weather in any city.

- Optimizing loading times and user experience using Vite.
- OpenWeatherMap API integration for real-time weather data.

EXPERTISE

- Project Management with Agile Methodology
- Digital Marketing
- Negotiation
- Communication Skills

TOOLS

Visual Studio Code, Vite JS, Git, Bash, NPM, Postman, Docker, Tailwind, Material UI
Adobe Creative Studio.
