Web Developer

Academlo School of Technology and Computer Science

2024 - 2024

EXPERTISE

- Management Skills
- Digital Marketing
- Negotiation
- Critical Thinking
- Communication Skills

LANGUAGE

- English B1
- Spanish Native

PROFILE

As a passionate full-stack web developer, I specialize in creating seamless and responsive user experiences using modern frontend technologies like React, HTML, CSS, and JavaScript. With a strong foundation in UI/UX design and tools like Adobe Photoshop, Illustrator, and Figma, I bridge the gap between functional code and user-centered design.

MAIN PROJECTS

Marvel Universe Characters App
NOV – 2024

Web application that consumes the Marvel API to explore characters.

- Implementation and user authentication and data paging.
- Used `useContext`, `useReducer` and `React Router` for state and route management.

CRUD User App
NOV – 2024

CRUD application to manage users with Material Design design.

- Implementation of filters and efficient search with React, improving the performance of the app.
- Form management and custom validations in React.

Weather App
NOV – 2024

Application to check the weather in any city.

- Optimizing loading times and user experience using Vite.
- OpenWeatherMap API integration for real-time weather data.

Technologies

Adobe Photoshop, Illustrator, After Effects, SVG, Figma
